OpenChannel Network on Growth Fast Track with Multiple Customer Contracts.

San Jose, CA: (Feb, 2007) – OpenChannel Network "OCN" a leader in internet broadcast channel development, welcomes its initial customers. OpenChannel assist's company's create and manage online broadcasting solutions. OpenChannel is among the thought leadership for this emerging trend of content and advertising presence. The multi billion dollar advertising market has seen nearly a 49% increase in internet media. Internet advertising exceeded $8 billion dollars during the last year.

Carol Ross, Certified Professional Co-Active Coach

"What sets OpenChannel apart is their ability to see the future and their ability to make the tools available to customers NOW to create that future."

Michael York, Author, Consultant, and Speaker

"Great ideas spread! Technology can accelerate these ideas, if only we know where to find the right kind of content and technology partner. My partner is OpenChannel Network!"

Willie Jolley

"If you want to get your information to the world in a dramatic and exciting new way I want to recommend that you use the Open Channel Network. They're not only easy to work with but they are showing the world which way to go"

Michael Rabbitts, Co-founder of OpenChannel stated " We are really excited with the interest and positive feedback we're experiencing. Much work has went into the development of our network broadcast platform to allow rapid customer site creation and content addition. With our current pipeline and closed deals we are very bullish about the rapid growth and our footprint in this new market."

About OpenChannel Network

OCN ignites the web based media revolution by providing companies turnkey solutions for creating, launching and maintaining their online web channel presence. It is our vision to create useful online content channels for the masses; much like satellite television redefined its broadcast market. OpenChannel offers solutions ranging from channel creation and marketing to full content design solutions. Our customers range from small entities, seeking to explore the benefits of online broadcast presence, to Fortune 500 companies seeking to create a dominant multi-channel network. www.openchannel.com
